

Prayer Letter

By a holistic approach Papa Stour Project demonstrates God's love and grace through Jesus Christ to young men struggling with drug and alcohol dependency, providing the resources needed to lead to sustained recovery.

Greetings

Hello all.

It feels like only yesterday that I sent out the last prayer letter, which it appears some of you had problems opening, sorry for that. – This one will be sent in both .doc and .pdf if this doesn't work I give up.

Its been another busy month in one way or another here on papa;

Now with two clients each day brings new challenges. Please pray for continued wisdom and discipline for the staff.

Inspections, inspections and yes more inspections. Please pray that we will finally get to the end of this series of inspections soon, with a positive outcome.

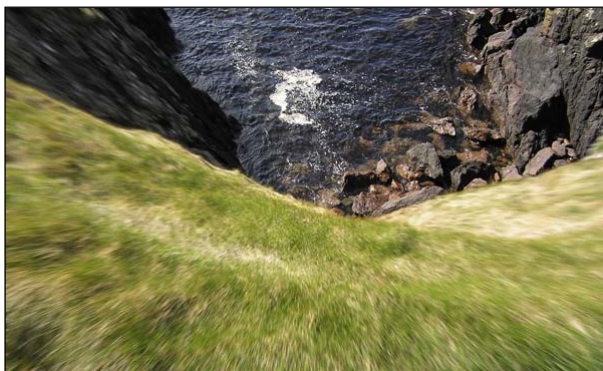

The harassment seems to be continuing with friends of the project being verbally attacked in public and Andy, Sabina and the project including the clients being libelled and slandered.

Pray that this harassment has no effect and those that are being attacked have the strength to withstand. Please pray for those doing this that they may come to know Jesus and find peace in their own lives.

And finally please remember to pray for the regular issues this month as they are as important as ever.
