

Prayer Letter

By a holistic approach Papa Stour Project demonstrates God's love and grace through Jesus Christ to young men struggling with drug and alcohol dependency, providing the resources needed to lead to sustained recovery.

Greetings

Hello all.

Once again I can't believe its time for a new letter. Well Andy and Sabina are back from Hols relaxed and refreshed only for 5 days later Sabina to be off to hospital for a non emergency op. Please lift her up and Andy although the operation is routine we want her to make a swift recovery. And pray for Andy as this will be a worrying time for him.

The new year will soon be upon us and time for Andy and Sabina to recruit a new support worker. Please lift this situation up in prayer as it will not only be a disruptive time for Andy and Sabina but for the clients as well. Anyone interested in a job?

The project is about to make a commitment to taking on a third client, this will be a first and will be a challenge, so please pray for this and for all of our current clients.

Christmas for me is a time of joy and fun, but its not for everyone and it can be a time of depression for a lot of people. In our thoughts, prayers and actions it is so important to remember all may not share our joy and fun. Please pray for our client at this time.

As this will be the last prayer letter of 2006 we at PSP would like to wish Gods peace and joy with you over the next month and into the new year, and thank you for your prayers and support.

Thoughts

Each year at this time St Martins Church in Trafalgar Sq. has a service for all those that have died in the last year due to homelessness in London. **Poverty is all around us.**
